

**CCSF Internal Audit Report on  
Consultant, Technical and Professional Services Providers to CCSF**

**March 17, 2021**

Prepared by:

David James, CPA  
Executive Director, Internal Auditor/Controller  
Office of Internal Control and Audit  
City College of San Francisco  
50 Frida Kahlo Way  
San Francisco, CA 94112

## Executive Summary

1. In general, management and staff have indicated satisfaction with the quality of services provided by consultants and could justify the need for such services. In instances where a vendor's services were no longer needed, the services were terminated.
2. The total purchase order amount for consultants and professional services for fiscal year 2020-2021 is \$32,559,940, and the amount paid as of March 2021 is \$14,374,450. For fiscal year 2019-2020, the total purchase order amount for consultants and professional services was \$37,331,692, and the amount paid for the year was \$34,587,192. In many cases, the actual amounts invoiced and paid were less than the amounts of purchase orders.
3. Temporary staffing has been used at a high level by Construction, IT, and Finance, which are among the largest expenses. Had CCSF been able to fill vacant positions with permanent staff, the overall cost for services would be less. In some areas, temporary staff have been used due to retirements, resignations, vacancies, and failed searches, which necessitated temporary help.
4. Total annual amounts for professional services averaged 75% for construction, 9% for IT, 6% for instruction, 2% for finance, and 2% for maintenance. Other categories were 1% or less. (See costs detail on page 4.)
5. Printing services that have been outsourced could potentially be done in-house by CCSF employees at a cost savings.
6. A report from the financial system that identifies services with purchase orders and amounts paid in the fiscal year would assist management in monitoring services expenditures. (See the example report on page 12.) To maintain such a report would require more careful and consistent account coding and descriptions of service purchase orders to identify types of services performed.
7. There are a few instances in which payments were made to service vendors for which a purchase order was needed. Improvements for internal controls were recommended to staff.
8. Internal Audit's observations and recommendations to management, and management's responses, are on page 7 of this report.

## **Introduction**

The objective of this audit was to review the costs and services performed by consultants, technical and professional service providers to CCSF. The scope of this audit focused on professional service purchases of the current fiscal year through March 2021 and the prior fiscal year. The scope includes service purchases with purchase orders and purchases of \$3,000 or greater, which is the amount required for a purchase order according to policy. This report was done at the request of Interim Chancellor Rajen Vurdien.

## **Definition of Consultant, Technical and Professional Services**

For the purposes of this report, consultant, technical and professional services mean those services rendered by persons who are members of a particular profession or possess a special skill and who are not employees of CCSF. Special services are defined as services and advice in financial, economic, accounting, engineering, legal, or administrative matters performed by persons knowledgeable and competent to perform the special services required. Professional services include private architectural, landscape architectural, engineering, environmental, land surveying, or construction project management firms. As distinguished from an employee, a consultant pays their own Social Security, income taxes without payroll deduction, and has no retirement or health plan rights from CCSF. According to the IRS, generally an individual is an independent contractor if the payer has the right to control or direct only the result of the work and not what will be done and how it will be done.

## **Purchase Requisition and Purchase Order Approval**

According to *Administrative Procedure 8.06, Procurement of Supplies Equipment and Services*, services are any deliverable resulting from labor performed specifically for CCSF. The service may result from the application of physical or intellectual skills. Services include, but are not limited to consulting, printing, data processing, custom software design or coding, and other items.

For purchases of \$0 to \$3,000, no purchase order is required. The invoice is signed by the CCSF approver and submitted to Accounts Payable to process. Examples of these services are language coaching for students, lab training, and guest lecturers.

For purchases greater than \$3,000 to \$60,000, an issued purchase order and Board ratification are required. Examples of these services are for cleaning, grounds maintenance, and printing.

Purchases greater than \$60,000 require an issued purchase order and Board preapproval. Examples are for information technology services, construction services, and legal.

The Chancellor or Vice Chancellor of Finance and Administration is authorized to sign agreements on behalf of the District for services necessary to conduct the business

affairs of CCSF. The Senior Director of Finance and the Department Manager/Dean approve purchase orders.

### Purchase Orders and Amounts Paid by Category in Fiscal Year 2020-2021 and Fiscal Year 2019-2020

Category	Fiscal Year 2020-2021		Fiscal Year 2019-2020	
	PO Amount	Amount Paid	PO Amount	Amount Paid
Construction	25,942,677	10,342,052	26,980,878	25,883,656
IT	2,281,265	1,789,079	2,852,380	2,719,616
Instruction	1,313,847	610,903	3,278,350	2,602,916
Finance	665,342	383,206	462,650	316,590
Maintenance	421,385	395,112	746,263	584,112
Sign Language/Captioning	379,819	90,125	410,653	316,176
Cleaning	363,100	65,558	500,519	364,321
Legal	334,000	276,448	514,023	432,899
Printing	332,560	140,371	684,948	592,480
Marketing	311,816	235,287	607,655	529,201

<b>Total</b>	<b>32,559,940</b>	<b>14,374,450</b>	<b>37,331,692</b>	<b>34,587,192</b>

### Types of Professional Service Expenses by Consultants and External Vendors

- *Construction Services* are by far the largest consultant and service expense for CCSF, with \$25.9 million in purchase orders in the current fiscal year, and \$27 million last fiscal year. Amounts paid were \$10.4 million in FY 20-21, and \$25.9 million in FY 19-20. Costs are for design and build services, architectural and engineering services, and temporary construction management staffing. The larger-cost construction projects are the STEAM building, the Performing Arts Center, the Student Success Center, and infrastructure projects for the Ocean Campus.
- *IT Services* are \$2.3 million for purchase orders in the current fiscal year, and \$2.9 million last fiscal year. Amounts paid were \$1.8 million in FY 20-21, and \$2.7 million in FY 19-20. The largest costs are for project-based staffing by CampusWorks Inc., systems administration and database support by OculusIT, software project consulting by Hobsons, Inc., and IT security by Dataway US.
- *Instruction Service* are \$1.3 million in purchase orders in the current fiscal year, and \$3.3 million last fiscal year. Amounts paid were \$610,903 in FY 20-21, and \$2.6 million in FY 19-20. Larger cost items include San Francisco Police Department that provides peace officer training for academy cadets, San

Francisco Fire Department that provides coursework for firefighting, and Title IV-E project contractors. Instruction purchase order amounts declined this fiscal year primarily because of a decrease in Title IV-E project contractors, internship programs, and training to employees of SFO.

- *Financial Services* have \$665,342 in purchase orders this fiscal year, and \$462,650 last fiscal year. Amounts paid were \$383,206 in FY 20-21, and \$316,590 in FY 19-20. The largest costs were for consultants and temporary staff performing accounting, auditing, and financial functions.
- *Maintenance Services* have \$421,385 in purchase orders this fiscal year, and \$746,263 last fiscal year. Amounts paid were \$395,112 in FY 20-21, and \$584,112 in FY 19-20. The largest costs were for maintenance of grounds, buildings, and equipment. Last fiscal year costs included a contractor who painted several Ocean Campus buildings.
- *Sign Language/Captioning* have \$379,819 in purchase orders this fiscal year, and \$410,653 last fiscal year. Amounts paid were \$90,125 in FY 20-21, and \$316,176 in FY 19-20. These services are mostly performed by individuals at hourly rates.
- *Cleaning Services* have \$363,100 in purchase orders this fiscal year, and \$500,519 last fiscal year. Amounts paid were \$65,558 in FY 20-21, and \$364,321 in FY 19-20. The largest costs were for trash pickup, specialized Culinary Arts cleaning, and hazardous waste disposal.

The largest purchase order amount for cleaning services was for Recology Sunset Scavenger, for refuse removal at all City College campuses. The amount paid this fiscal year to Recology was significantly lower than in past years, because of reduced trash pickup due to moving classes to online because of the COVID restrictions.

Recology Sunset Scavenger		
Fiscal Year	Purchase Orders Amount	Amount Paid
2020-21	255,800	35,981
2019-20	358,185	281,421
2018-19	359,315	378,949
2017-18	432,298	424,170
2016-17	408,000	351,033
2015-16	398,000	377,016
2014-15	476,000	391,608
2013-14	428,000	413,299
2012-13	528,480	409,986
2011-12	540,800	446,751

On March 4, 2021, the San Francisco City Attorney reached a settlement with Recology following a civil investigation that found Recology overcharged San Francisco ratepayers. CCSF administrative management plans to renegotiate its contract with Recology.

CCSF had a Term Purchase Agreement with South San Francisco Scavenger Co. for solid waste disposal at the Department of Aeronautics at San Francisco International Airport. However, South San Francisco Scavenger Co. does not service the San Francisco area where CCSF is located.

For Culinary Arts, purchase orders included specialized cleaning totaling \$24,950 in the current fiscal year.

- *Legal Services* have \$334,000 in purchase orders this fiscal year, and \$514,023 last fiscal year. Amounts paid were \$276,448 in FY 20-21, and \$432,899 in FY 19-20. The firms currently used by CCSF are: Atkinson, Andelson, Loya, Ruud & Romo; Sloan Sakai Yeung & Wong LLP; Leone & Alberts; Allen, Glaessner, Hazelwood & Werth LLP, and a firm that does public safety personnel investigations.
- *Printing Services* have \$332,560 in purchase orders this fiscal year, and \$684,948 last fiscal year. Amounts paid were \$140,371 in FY 20-21, and \$592,480 in FY 19-20. This is for firms and individuals who prepare signs, banners, documents, diplomas, catalogs, stickers, brochures, postcards, magazines, advertising, and designs. Many of these print and design services could be performed at CCSF's Digital Printing Services of the Visual Media Design Department that does printing jobs and has a design studio.
- *Marketing Services* have \$311,816 in purchase orders this fiscal year, and \$607,655 last fiscal year. Amounts paid were \$235,287 in FY 20-21, and \$529,201 in FY 19-20. These costs are for firms such as Berg Davis Public Affairs that perform media services. These firms create videos, advertising, and outreach to students.
- *Lobbying Services* have \$72,000 in purchase orders this fiscal year, and \$92,000 last fiscal year. Amounts paid were \$18,000 in FY 20-21, and \$86,000 in FY 19-20. This entire amount is for the McCallum Group, Inc., which provides legislative advocacy services and monitors CCCCO and CCCBOG proposals. The consulting firm reports on legislation and potential grant funding.
- *Human Resources Services* have \$61,700 in purchase orders this fiscal year, and \$57,620 last fiscal year. Amounts paid were \$0 in FY 20-21, and \$74,470 in FY 19-20. These costs include a consulting firm for Chancellor searches and pre-employment medical examinations for new employees at Buildings & Grounds.
- *Security Services* have \$61,610 in purchase orders this fiscal year, and \$10,904 last fiscal year. Amounts paid were \$13,725 in FY 20-21, and \$9,580 in FY 19-20. Most of these costs this fiscal year are for a consultant to review and update

the CCSF Emergency Action Plan and create a Master Security Plan. Other amounts are for alarm, call box, and monitoring services.

- *Health Services* have \$18,820 in purchase orders this fiscal year, and \$132,849 last fiscal year. Amounts paid were \$14,584 in FY 20-21, and \$75,175 in FY 19-20. One contractor provides consultant services to the CCSF Nurse Practitioners when medical evaluation/advice is indicated for patients. Another contractor provides means for students to access campus-based mental health resources. These costs declined mostly because of a contractor, Barton Associates, for temporary provider coverage due to a staffing shortage during the last fiscal year.

The total purchase order amount for consultants and professional services for fiscal year 2020-2021 is \$32,559,940, and the amount paid as of March 2021 is \$14,374,450. For fiscal year 2019-2020, the total purchase order amount was \$37,331,692, and the amount paid for the year was \$34,587,192.

## Observations and Recommendations

### 1. Temporary Staffing

**Observation:** Temporary staffing has been used for high-level administrative positions at CCSF in functions such as Construction, IT, and Finance. These temporary staff have been for long-term or permanent types of projects that community colleges need to accomplish their core functions. When these temporary staff depart, they take much of their acquired knowledge about CCSF's operations. Had CCSF been able to fill vacant positions with permanent staff, the overall cost for services would be less. Note that in some areas, temporary staff have been used due to retirements, resignations, vacancies, and failed searches, which necessitated temporary help.

**Recommendation:** CCSF executive management should consider using permanent staffing for long-term positions when possible.

**Management Response:** *“Administrative management concurs with the recommendations. The Finance and Administration area needs to hire permanent, full-time staff in Budget, Facilities, and Informational Technology Services to reduce the reliance on contract, and temporary staffing. We will work with Cabinet and Human Resources to begin this changeover.”*

### 2. Print Jobs

**Observation:** Various college departments have printing projects that have been outsourced. CCSF has the Visual Media Design Department with Digital Printing Services at the Mission Center that has done digital print jobs such as signs, brochures, posters, and artwork. This Department has also created social media

content and design of the content of various print products. There is an educational component to the design work which is completed by advanced students. This Department has had its operations interrupted due to the COVID-19 lockdown, but during normal operation this Department has done significant print jobs for the college community. This Department uses a cost-only charge-back system via transfer of expenditure. The use of internal print production could reduce costs for necessary print jobs.

**Recommendation:** When print or design work is needed by any department of CCSF, that department should consider contacting CCSF's Digital Printing Services of the Visual Media Design Department to perform the job.

**Management Response:** *Administrative management concurs.*

### 3. Report on Professional Services and Consultants

**Observation:** In order to obtain information for this audit report, Internal Audit used the Monthly Purchase Order Report that is presented to the Board, used other internal system reports, did numerous queries in the Banner system, and did individual record lookups for each transaction to determine the nature of the purchase and the amounts paid to the vendor. Then the accumulated information was copied and combined in a spreadsheet. (See the example spreadsheet on page 12.) It was a time-intensive process.

A new report from the Banner/Argos financial systems that would identify services with purchase orders and amounts paid in the fiscal year would assist management in monitoring consultant and professional services expenditures. To maintain such a report would require more careful and consistent account coding by staff and descriptions of service purchase orders to clearly identify types of services performed. Internal Audit found instances where the same types of transactions used different accounting codes (Banner system's FOAPAL) or purchase order designations (i.e., Purchase Order, Professional Service, Term Purchase).

**Recommendations:** The Information Technology Services (ITS) Department should develop an automatically generated report of consultant, technical and professional services. CCSF management should regularly monitor this report to assess whether these services and consultant expenditures are appropriate and within budget. (See the report example on page 12.)

Staff should consistently use accounting codes (Banner system's FOAPAL) for purchase orders so that staff can readily identify services for expenses such as consultants, temporary staffing, and professional services. Staff should

consistently enter descriptions of purchase orders in the Banner system with an awareness that the descriptions will appear in external purchase order reports.

**Management Response:** *“We have assessed and determined that the current BANNER system needs to be enhanced and modified for budget development, budget management, and reporting. This is not an easy solution and it cannot be done with current staff. The current BANNER and ARGOS systems have not been designed to provide routine, consolidated reports which allow for ease of use by staff and management. The current system is limited, staff perform workarounds to manipulate data, and the workaround process is prone for errors. ITS is currently reviewing the options and cost associated with making the changes needed, which we hope we can implement beginning July 1, 2021, or by no later than January 1, 2022.”*

#### 4. Purchasing Control

**Observation:** Internal Audit found a vendor (Eva Schiorring) for which the amounts paid exceeded the approved purchase order amounts. This vendor has a three-year professional services contract for teacher preparation with the Child Development Department.

For this vendor, purchase order amounts and payments for the past two fiscal years are:

PO Number	Order Date	PO Amount	Amount Paid	% Difference
PS13429A	11/25/2019	\$ 5,912.50	\$ 13,007.50	120%
PS13429B	7/1/2020	\$ 9,087.50	\$ 13,255.00	46%

The Finance Department has an internal policy that their system allows 10% overages to cover small variants such as taxes. Otherwise, their system requires additional approvals at the Vice Chancellor level. In this instance, the variants were greater than 10%. The Purchasing system is a useful tool for budgeting to indicate the potential to spend more than budgeted amounts in an expense category.

**Recommendations:** Finance and Administrative staff should require the Child Development Department to get approval for the increased amount anticipated for vendor Eva Schiorring for this fiscal year. Finance and Administrative staff should regularly check invoices for amounts that combine to be greater than approved. Finance and Administrative staff could create a report of purchase order amounts and amounts paid. Staff could regularly review this report for possible violations of policy. Alternatively, Finance and Administrative staff

should explore putting a flag/notification in the Banner system that would notify staff when an invoice is greater than the approved amount.

**Management Response:** Administrative management concurs.

## 5. Purchase Orders Required

**Observation:** Administrative Procedure 8.06 requires an approved purchase order and Board ratification for purchases of more than \$3,000. We noted two vendors who each received several payments of \$3,000 for the same service, lab site mentoring and support for interns, by using multiple invoices. These vendors appear to be separate organizations at different addresses. The Engineering and Technology Department did not obtain a purchase order for these payments. By separating payments into invoices of \$3,000 each, the rule can be circumvented.

Vendor Name	Invoice #	Date	Amount Paid FY21	Organization	Organization	Program	Description
Tenaya Therapeutics	I0038909	1/26/21	3,000	CIRM Stem Cell Training Enhance 5Y	Engineering Dept	Engineering and Related Technology	Lab site mentoring and support for CCSF stem cell intern
Tenaya Therapeutics	I0038910	1/26/21	3,000	CIRM Stem Cell Training Enhance 5Y	Engineering Dept	Engineering and Related Technology	Lab site mentoring and support for CCSF stem cell intern
The J. David Gladstone Institutes	I0038911	1/26/21	3,000	CIRM Stem Cell Training Enhance 5Y	Engineering Dept	Engineering and Related Technology	Lab site mentoring and support for CCSF stem cell intern
The J. David Gladstone Institutes	I0038913	1/26/21	3,000	CIRM Stem Cell Training Enhance 5Y	Engineering Dept	Engineering and Related Technology	Lab site mentoring and support for CCSF stem cell intern
The J. David Gladstone Institutes	I0039183	2/17/21	3,000	CIRM Stem Cell Training Enhance 5Y	Engineering Dept	Engineering and Related Technology	Lab site mentoring and support for CCSF stem cell intern

In addition, the Engineering and Technology Department did not obtain purchase orders for two payments related to training. In the prior fiscal year, there were other vendors who did not have purchase orders in the fiscal year the service was performed and the invoices paid. The system would benefit from improved internal controls to ensure there are purchase orders to match all invoices.

Vendor Name	Invoice #	Date	Amount Paid FY21	Organization	Organization	Program	Description
Regents of the University of California	I0037570	9/30/20	20,000	CIRM Stem Cell Training Enhance 5Y	Engineering Dept	Engineering and Related Technology	Training fee
Andrea Goldfien	I0037970	11/2/20	9,200	NSF Collaborative Research	Engineering & Tech - Biotech	Course and Curriculum Development	Services as an external evaluator, preparing an external evaluation report required by NSF ATE grant

**Recommendations:** Finance and Administrative staff should develop a report, or a check within the Banner system, to identify purchases greater than \$3,000 with

no purchase order. Finance and Administrative staff should notify those CCSF departmental managers who approved these invoices that a purchase order is required.

***Management Response:*** *Administrative management concurs.*
